Note:  For all forms of Work Study, report the matching funds as code WU (unless the program was directly matched with another program on the list).

MIS Reporting of BOG Fee Waivers

Instructions for Fee Waiver Activity as of October 1, 2000.

BOG Fee Waivers are not the same as "regular" financial aid and we must address that issue. The purpose of reporting the BOG Fee Waivers to the Chancellor's Office is to provide a mechanism for calculating the amount that a school should be reimbursed for (a) the number of fee waivers processed and (b) the amount of fees waived.  To facilitate this process, the colleges must report each student for which they want to be reimbursed using the following reporting rules.

1. Report a fee waiver for every student:
   Determined eligible for a BOG Fee Waiver AND
   For whom fees were assessed AND
   Attended at least one meeting of a course for which the fees were waived.

2. The amount of the fee waiver reported should be the total fees that would have been collected from the student had they actually paid for their credit load.  As an example, if a student initially enrolls in fifteen units at the beginning of a term but by the end of the refund period, they have dropped to six units, the amount reported should be what the student would have paid for those six units.  If the student does not drop the courses until after the refund period, the amount reported would be what the student would have paid for all fifteen units.  If the student drops all of their courses within the refund period report the amount waived as zero.  **BOG Fee Waivers are the only financial aid awards that can be reported with a zero amount.**

3. The amount of the fee waiver reported on the MIS financial aid (SF) record is the total fees waived for the term for that fee waiver type.

4. If a student pays fees but is subsequently determined to be eligible for a fee waiver and the fees are refunded to the student, report that student and the fees waived.

5. In multi-campus districts, report the student as a recipient at each college where the student enrolls.  If the student enrolls at more than one college in the district, do not limit the reporting to a single campus.  Each college's SF records are separate and represent the activity at that college only.  The MIS data reported should reflect the types of aid received by all the students at that college without regard to enrollment in other colleges in the district.

6.  Summer fee waivers are always reported as "leaders" not "trailers".

| FIELD CHECK | BA, B1, B2, B3, BB, BC, BD, BP, F1, F2, F3, F4, F5, F6, F7, GA, GB, GC, GD, GE, GF, GG, GH, GI, GJ, GK, GL, GM, GN, GO, GP, GQ, GR, GS, GT, GU, GV, GW, GX, GY, GZ, LD, LE, LG, LH, LI, LN, LP, LS, LL, LY, SO, SU, SV, SX, WC, WE, WF, WK, WL, WU, WY |
| | No LG, LH from 2010-2011 data on |
| | No GD, GH from 2021-2022 data on |
| | |
| REFERENTIAL CHECK | Even if the student does not meet the reporting domain for MIS Enrollment (SX) data, you must submit a Student Basic (SB) record for every term the student was reported as receiving aid.  In the case of students attending and receiving aid at more than one college, SB records must be reported for all colleges attended. |
