Domain

This record layout depicts the 'XB' SECTION record layout. When the 'XB' file is submitted, it also contains the 'XE' ASSIGNMENT records and the 'XF' SESSION records, in any order. The file is sorted by record code before processing, and the results are split into three files of related Section, Assignment, and Session data and provided to the districts.

Include one record for any section that meets any of the following conditions:

- Weekly or Daily census section that goes beyond the census date
- Positive Attendance/Open Entry-Open Exit section that met at least once
- Independent Study, Work Experience, Independent Lab section where an enrollment resulted in a notation on the official record for a student

Report sections that span terms with the term data in which the term ends. As an example, if the section begins in the Summer and ended in the Fall, report the section with the Fall term data.
