**Student Characteristics Derived Data Elements**

DED#	DATA ELEMENT NAME	FORMAT
<b>STD1</b>	<b>STUDENT-AGE-AT-TERM</b>	<b>9(03)</b>
This element indicates the student's age for the term recorded in Term-Identifier (GI03).		

<b>ELEMENTS</b>		
<p>Student-Age-At-Term = (Calendar Year - Student-Birthyear)</p> <p>1. If Student-Birthmonth is greater than Calendar-Month, one is subtracted from STUDENT-AGE-AT-TERM or</p> <p>2. If Student-Birthmonth is equal to Calendar-Month and Student-Birthday is greater than or equal to Calendar-Day, one is subtracted from STUDENT-AGE-AT-TERM.</p>		
Student-Birthyear, Student-Birthmonth, and Student-Birthday are the component parts that comprise the data element STUDENT-BIRTH-DATE (SB03).		
Calendar Year: is reported with the student basic data elements. Calendar Year is defined as "The last two digits of the calendar year in which the term occurs." (YY) in Term-Identifier (GI03).		
Calendar-Month and Calendar-Day: are both defined for each of the reporting periods. The calendar months and days are specified as follows:		
Reporting Period	Calendar-Month	Calendar-Day
Annual	10	15
Winter Intercession	02	01
Winter Quarter	02	01
Spring Semester	03	01
Spring Quarter	03	01
Summer Term	07	01
Summer Quarter	07	01
Fall Semester	10	15
Fall Quarter	10	15
None of the Above	10	15
